ZyXEL

Easily share and protect your broadband Internet connection

Small on size, but not on features, the ZyXEL P-330W makes it easy to share your broadband connection with multiple computers, video game systems, and other Internet enabled devices. The built-in 802.11g Access Point features support for the advanced WPA2 security standard ensuring your wireless data is safe and secure.

Benefits

Easy Sharing
The ZyXEL P-330W's NAT firewall allows you to share a single public IP address with all of your network devices, making connecting to the Internet as easy as possible while also offering protection from Internet threats. The built-in 4-port switch features Auto-MDI/MDIX technology, allowing you to easily connect multiple devices to your network without worrying about cabling conflicts. The Wi-Fi certified 802.11g access point supports all major wireless security standards ensuring compatibility and security for your wireless network.

Advanced Features
The ZyXEL P-330W is loaded with advanced feature like WPA2, which is the strongest security certified by the Wi-Fi Alliance. In addition, the P-330W features Denial of Service (DoS) protection and soft-DMZ offer advanced levels of protection to your network. Dynamic DNS (DDNS) allows you to easily locate and access your network when away from home even if you don't have a fixed IP address provided by your ISP. The antenna on the P-330W is removable, allowing you to attach more powerful or directional antenna to ensure the best wireless performance possible.

Specifications

System Standard
IEEE 802.3 and 802.3u 10Based-T and 100Based-TX
IEEE 802.11g standard compliant

Wireless
Power Output – 14.2 dBm @ 54Mbps, 18.4 dBm @ 11Mbps
Receive Sensitivity – -70 dBm @ 54Mbps, -86 dBm @ 11Mbps
Antenna Gain – 2 dBi
Antenna Connector – RP-SMA

Hardware Specification
LAN: Four 10/100Base-T Ethernet, full duplex RJ-45 connector with auto MDI/MDIX support
WAN: One 10/100Base-T Ethernet, full duplex RJ-45 connector with auto MDI/MDIX support
Power Supply: 12V AC, 800 mA

Router Features
Network Address Translation
Firewall with DoS Protection
Dynamic DNS
DHCP Client/Server
Diagnostic Tools

Operating Environment
Temperature: -10℃ to 55℃
Humidity: 10% to 90% non-condensing

System Requirement
Broadband (cable, DSL, satellite or wireless) Internet service and modem with Ethernet RJ-45 connector
Ethernet connection (adapter or cable)
Windows, Mac or Linux based operating system
Internet Explorer 5.0 or later.
